

About us

Mothercare Preparatory School was registered as a nursery and primary school in 1987. We are located at the foot of Mount Rwenzori, and in close proximity with Queen Elizabeth National Park, in Kasese district, Western Uganda. We aim to provide our children with an excellent foundation which leads them to excel and become independent learners who will continue to love learning throughout their lives.

We offer the Uganda basic education National Curriculum culminating into the award of the Uganda primary leaving certificate. To facilitate mastery learning, we use innovation, differentiated, multicultural and a cross curricular opportunities and approaches. Our school is committed to providing a happy and engaging learning environment, where children acquire and develop fundamental knowledge, skills and attitudes. We go beyond the national curriculum by introducing and teaching computer skills, French, Kiswahili, and extra English skills right from grade one. As well, we provide deliberate opportunities for all children to develop their sports and art and design talents; and to participate in topical issues projects.

This prepares our children to access and benefit from a range of education programs and social economic competitive opportunities in English, Francophone and Kiswahili speaking countries- world wide.

Our Vision
A happy, industrious school where children develop their full potential.

Our Mission
Our mission is to build a firm foundation for excellency in education.

Our Values

- Integrity
- Professionalism
- Excellence
- Innovation
- Diversity
- Team work
- Respect
- Accountability
